Madam/Sir:

This is a response to the Office Action in the above identified patent application.

1. The Examiner rejects claims 1 - 28 under 35 U.S.C. 102 (e) as being anticipated by Kudou et al U.S. Patent No. 6,374,097.

The Applicant disagrees with the Examiner in that the invention as presented in claim 1 is not new in view of Kudou.
